### TECHNICAL SPECIFICATIONS

The Copper House appears to be a simple A-Frame from the front, but it is a multi-award winning architectural masterpiece that has five levels which cascade down the property without interrupting the beauty of the land on which it sits. The Copper House is private and yet the design provides superb views - especially from the Eagle's Nest (the upper master suite). There are many key design elements that make this home special. From the expansive commercial size European tilt and turn windows and doors to the Asian influenced timber structures; from the amazing "inside/out" stone wall that has climbing holds on the exterior to the stunning great room that is a bridge from the main house to the billiard room and bar. At the same time, this has been and remains a much loved family home which results in design excellence meeting coziness. You will feel immediately welcome and at home at the Copper House. The Copper House has a number of home automation features - stream your own beats, listen to pre-stored music or the radio throughout the house at the touch of a button. The automated lights in the stairway mean you will never be fumbling for the switch and everyone from Grandma to the wee ones will be safe in the night. The gourmet kitchen complete with two Miele dishwashers, a Sub-Zero wine fridge, Wolf double ovens and 4 burner range will win any cook's heart over.
